

Kuwait Visa medicals-key features

- includes full medical (by a doctor, not nurse)
- chest x ray (to exclude TB)
- blood tests-HIV, hepatitis B & C, syphilis, malaria(only one needle though)
- Filariasis (new 15 minute test-used to be 2 weeks) finger prick test
- urine test
- (pregnancy test if applicable)
- results in a typed medical report

Average turnaround time 48 hours.

Please bring photo ID to the appointment and a passport type photo, as well as your GP's details. We will e mail you a copy of the completed form as well as send a hard copy by post so the Kuwait visa medical requirements are promptly done so you can work in Kuwait.

Notes:

1. you do not need to fast for the blood samples
2. we do not provide vaccinations-excellent advice for this is available at: www.fitfortravel.nhs.uk/home.aspx
3. please bring list of any medication and important medical conditions
4. payment can be made in cash, cheque or BACS transfer (receipt provided)
5. you can cancel the medical at no cost anytime prior to the medical though if you book the medical and do not attend, a £100 becomes due payable within 2 weeks.
